ARMOURED VEHICLES AND SOLUTIONS SINCE 1948
PROTECTION | MOBILITY | INNOVATION

Protecting without compromise

Since 1948 in Lamballe-Armor, Centigon France designs and manufactures armoured solutions Made in France with a single purpose: **to protect.**

To protect those who ensure domestic security, to protect police forces, to support defence missions against real ballistic and explosive threats.

Our range illustrates the breadth of this expertise: armoured SUVs including the LC300, the benchmark for protection and mobility, tactical pick-ups, protected cabs for heavy trucks, APC troop transport vehicles such as The RAVEN, as well as bespoke vehicles for heads of state, special forces and intervention units.

Every solution is designed, tested and certified to meet a single objective:

Protecting the mission, **protecting** the crew, protecting the capacity to act — **that is our commitment.**

THE BENCHMARK FOR CUSTOM ARMOURED VEHICLES

THE RAVEN BY CENTIGON FRANCE
LAW ENFORCEMENT VERSION

A Breton SME with 140 employees based in Lamballe (Côtes-d'Armor), Centigon France has been designing, manufacturing and converting civilian and military armoured vehicles since 1948. It serves governments, security forces, international organizations and private operators. With 36.5 M€ of turnover in 2025, the company relies on nearly 80 years of industrial expertise.

Plus de 30 métiers sont maîtrisés en interne : ingénierie balistique, conception CAO 3D, bureau d'études châssis, modélisation numérique, gestion de projet industriel, homologation et certification, découpe laser acier blindé, pliage presse, soudure robotisée et manuelle, grenaillage, chaudronnerie, assemblage mécanique, intégration vitrage balistique multicouches, revêtement polyuréthane, garniture sellerie, peinture militaire et tactique, câblage embarqué, électronique et systèmes de communication, montage de pneus de roulage à plat, expertise et tests balistiques internes, certification

independent laboratories, quality control, metrology, QHSE management, supply management, maintenance and operational readiness. driver and technician training.

Centigon France operates using two complementary methods: the Cube-On method (full manufacture of an armoured cell on a bare chassis) and the Cube-In method (integration of armour into a series-production vehicle while preserving its original architecture).

ISO 9001 certified, Centigon France is accredited for the most demanding protection levels — from B4 to B7/VR9 — in accordance with international standards NF EN 1522/1523, NF EN 1063, VPAM BRV 2021 (VR4 to VR9) and STANAG 4569 levels 1 to 2. All tests are conducted in accredited independent laboratories.

A COMPLETE RANGE

LAW ENFORCEMENT
DEFENCE
SENSITIVE MISSIONS

Des SUV blindés haute mobilité aux véhicules de transport d'unités, des pick-ups tactiques aux transports de troupes, jusqu'aux véhicules de transfèrement de sécurité et aux cabines protégées, Centigon France déploie une offre globale conçue pour répondre à l'ensemble des besoins opérationnels.

LC300 DEFENCE

The high-mobility armoured SUV designed to protect engaged forces and ensure performance, discretion and operational superiority across all theatres of intervention.

LC300 AUTHORITIES

Le SUV blindé dédié aux missions d'escorte et de protection rapprochée, offrant discrétion, haut niveau balistique et mobilité maîtrisée pour sécuriser autorités, représentations diplomatiques et institutions judiciaires.

LC300 SPECIAL FORCES

Le SUV blindé haute intensité conçu pour les forces spéciales, alliant protection renforcée, mobilité tactique et capacité d'adaptation aux opérations les plus exigeantes en environnement hostile.

A COMPLETE
RANGE

LIGHT TACTICAL VEHICLE

B6 armoured pick-up with civilian appearance, GVW < 3.5 t, designed for discreet missions by law enforcement forces.

PRESTIGE SUV

Armoured prestige hybrid SUV with preserved civilian appearance, combining elegance, discretion and ballistic protection for VIPs and official convoys.

SECURE TRANSPORT VAN

Tactical 4x4 van with steel monocoque armour, versatile in urban and off-road environments, ranging from B3/B4+ for public roads to B6/B7 for special units.

ARMOURD APC

Armoured 4x4 troop transport vehicle, 10-tonne class, B7+ protection, APC platform available in law enforcement and defence versions.

A COMPLETE
RANGE

PROTECTED CABS

B6/B7 armoured cabs adaptable to all truck chassis on the market – from 2 to 5 seats for industrial and military environments

ARMOURED AMBULANCES

Range of 4x4 armoured ambulances, single and double cab – ballistic protection of the medical compartment for MEDEVAC missions in hostile areas.

CERTIFIED BALLISTIC PROTECTION - PRESERVED MOBILITY - ABSOLUTE DISCRETION

TOYOTA LAND CRUISER 300 GXR Armoured FORTRESS VR7 Diplomatic version

THE EXCELLENCE OF FRENCH ARMOUR IN THE
SERVICE OF THE MOST DEMANDING MISSIONS.

Fully converted at our industrial site in Lamballe, France, the Fortress 300 VR7 combines the legendary robustness of the Land Cruiser 300 with certified VR7 ballistic protection, without compromise on comfort or discretion. c
près de 80 ans d'expertise Centigon dans la protection balistique.

- ✓ Unrestricted VR7 certification
- ✓ Integrated 360° protection
- ✓ OEM mobility and comfort preserved
- ✓ International technical support

ARMOURED SOLUTIONS SINCE 1948

Discretion, protection, control

The **Fortress 300 VR7** is designed for government authorities, law enforcement forces, embassies, special units and institutional clients seeking:

- ✓ Maximum ballistic protection
- ✓ A discreet civilian silhouette
- ✓ Lasting mechanical reliability
- ✓ A controlled conversion process in France

Used by ministries and government agencies in France and internationally, it is a proven platform for high-threat environments.

OUR KEY COMMITMENTS

Total ballistic integrity

No blind spot, no ballistic gap. Strategic overlaps ensure continuous protection across the entire cell.

OEM structural integration

Armour integrated into the original shell — no visible external addition.

Operational mobility

Reinforced suspension, brakes and wheels to maintain manoeuvrability and comfort despite a mass > 4 tonnes.

100% French conversion

Design, manufacturing, integration and quality control carried out in Lamballe in an ISO 9001 & ISO 14001 certified factory.

Technical specifications

The Toyota Land Cruiser 300 GXR Armoured VR7 by Centigon France is the benchmark for elite law enforcement units. Based on the Toyota Land Cruiser 300 GXR version, it features VR7 ballistic protection certified to VPAM BRV 2021.

SPECIFIC FEATURES - DIPLOMATIC VERSION

Véhicule de base	Toyota Land Cruiser 300 GXR
Motorisation	V6 Essence ou Diesel
Dimensions (L x l x H)	4 950 x 1 980 x 1 945 mm – Empattement 2 850 mm
Niveau de protection	VR7 (VPAM BRV 2021) – Protection 360°
Places	5 (2 sièges avant + banquette arrière)
Vitrage	Multicouche balistique
Pneumatiques	Run-flat (affaissement limité)

ÉQUIPEMENTS STANDARD	OPTIONS
✓ Protection niveau VR7 certifiée laboratoire	◦ Protection acier du réservoir
✓ Vitrage balistique multicouches	◦ Pare-bufile + treuil électrique (usage CRS / maintien ordre)
✓ Pneus run-flat	◦ Vitre conducteur descendante
✓ Protection du plancher	◦ Feux stroboscopiques / IR
✓ Protection batterie / ECU / boîtier fusibles	◦ Protection plancher DM31 (mines)
✓ Protection latérale moteur	◦ Protection contre 15 kg TNT à 2 m
✓ Intercom intégré	◦ Issue de secours en pavillon
	◦ Caméra intégrée + sirène 2 tons & PA
	◦ Équipements radio / ECM
	◦ Marchepieds renforcés
	◦ Contrats de maintenance & formation

FORD RANGER Armoured B6 Light Tactical Vehicle

CENTIGON

Developed in partnership with Ford, the RANGER B6 meets the growing demand from law enforcement forces for light armoured vehicles. Its preserved civilian silhouette, GVW below 3.5 tonnes and powerful engine make it a discreet and agile solution for surveillance, rapid intervention and field intelligence missions. Its civilian exterior appearance allows armoured missions in total discretion. Drivable with a standard B licence (GVW < 3.5 t), and maintained via the approved Ford dealer network.

TECHNICAL SPECIFICATIONS

Véhicule de base	Ford Ranger Diesel (XL, XLT, WILDTRACK)
Motorisations	2.0L 170 ch 2.0L 205 ch 3.0L 240 ch
Dimensions (L x l x H)	5 350 x 1 910 x 1 886 mm – Empattement 3 270 mm
Poids à vide	~2 500 kg – PTAC ≤ 3,5 t (Permis B)
Équipage	1 conducteur + 3 passagers équipés
Protection opaque	FB6 NS (NF EN 1522/1523)
Protection vitrages	BR6 NS (NF EN 1063)
Munitions couvertes	M80, SS109, 7.62×39 mm M43 PS

EQUIPMENT & OPTIONS

ÉQUIPEMENTS STANDARD	OPTIONS
✓ Blindage cellule double cabine FB6/BR6	◦ Snorkel
✓ Verre balistique multicouches	◦ Treuil électrique
✓ Système de roulage à plat	◦ Tapis de sol balistique
✓ Système intercom	◦ Hardtop
✓ Sirène & Hauts-Parleurs	◦ Pare-bufile
✓ Feux de pénétration / IR / gyrophare	
✓ Prises 12V

Patrouille urbaine	1ère intervention	Sites sensibles
--------------------	-------------------	-----------------

IVECO DAILY 4x4 Blindé

Riot Control or Prisoner Transport Van

The Iveco Daily 4x4 Armoured by Centigon France is the ideal solution for secure personnel transport for security forces. This 7-tonne van with steel monocoque armour is available in Riot Control (RC) or Prisoner Transport (PT) version. The van operates in urban and off-road environments. Its monocoque armour is manufactured from high-hardness steel. The range is available in B3/B4+ versions for public road missions and B6/B7 for specialised units.

TECHNICAL DATA

Véhicule de base	Iveco Daily 4x4 – Chassis F1C – EURO VI-E HD
Motorisation	176 HP / 430 Nm – Diesel
Dimensions (L x l x H)	5 611 x 2 057 x 2 560 mm – Poids total : 7 t
Niveaux de protection	B3 B4+ B6 (VPAM KI.7) STANAG 4569 Niv.2 B7 (VPAM KI.9)
Places arrière	Jusqu'à 10 sièges individuels
Traction	Intégrale permanente 4x4
Marchés cibles	France métropolitaine, Europe, Export

EQUIPMENT & OPTIONS

STANDARD EQUIPMENT	OPTIONS
✓ Coque monocoque acier haute dureté	◦ Treuil électrique
✓ Vitrage balistique multicouches	◦ Trappe de fuite en toit
✓ Protection moteur et batteries	◦ Embrasures de tir
✓ Protection plancher 2x DM51	◦ Support d'arme
✓ Climatisation (OEM)	◦ Feux stroboscopiques & phares de recherche
✓ 10 sièges individuels arrière	◦ Protection grillagée vitrages
✓ Revêtement polyuréthane (Line-X™)	◦ Prédiposition radio HF/VHF/UHF
✓ Protection réservoir	◦ Porte latérale (gauche / droite)
✓ Pneus run-flat	◦ Pack pièces détachées & formation
✓ Sirène & Haut-Parleur – Intercom	◦ Peinture spéciale

Renault Rafale Armoured B6 I Prestige Hybrid SUV

Born from the partnership between Renault and Centigon France, the armoured RAFALE retains all the comfort, elegance and sporty characteristics of the standard Rafale, while integrating discreet B6 ballistic protection. The vehicle fully retains the sportiness of the hybrid coupé SUV while providing a high level of ballistic protection. Type-approved for a standard B licence in the short version (GVW < 3.5 t). Fully converted in Lamballe (22). Particularly suited to Ministries, VIPs and discreet convoys in urban areas.

TECHNICAL SPECIFICATIONS

Véhicule de base	Renault Rafale PHEV E-Tech 4x4 300 ch Esprit Alpine
Type	SUV Hybride Plug-in 4x4
Puissance	300 ch – Couple 230 Nm @ 1 750 tr/min
Vitesse maximale	180 km/h
PTAC	< 3,5 t (permis B)
Niveau de protection	B6 (équivalent VPAM 7) – Cellule complète
Plancher	Protection contre 2 grenades DM51

EQUIPMENT & OPTIONS

ÉQUIPEMENTS STANDARD	OPTIONS
✓ Protection balistique B6 – cellule complète	◦ Éclairage d'ambiance
✓ Verre balistique multicouches	◦ Vitres arrière surteintées
✓ Protection pack batterie hybride	◦ Internet embarqué
✓ Protection plancher 2x DM51	◦ Sellerie prestige
✓ Réservoir auto-cicatrisant	◦ Prises 12V à chaque rang
✓ Système roulage à plat	◦ Système ADAS neutralisé
✓ Système intercom	◦ Service et entretien
✓ Précâblage radio	
✓ Feux de pénétration	
✓ Vitre conducteur descendante	

TOYOTA LAND CRUISER 300 GXR Armoured B7 FORTRESS Intervention & Special Forces

The Intervention version of the Toyota Land Cruiser 300 GXR Armoured B7 by Centigon France is developed specifically for law enforcement intervention units and military special forces, special forces and counter-terrorism units. Maximum protection against large-calibre automatic weapon fire, armour-piercing ammunition, IEDs and mines. Highly configurable modular interior.

TECHNICAL SPECIFICATIONS

Véhicule de base	Toyota Land Cruiser 300 GXR Station Wagon (V6 Essence ou Diesel)
Dimensions	4 950 x 1 980 x 1 945 mm / Empattement 2 850 mm
Niveau de protection	B7 (VPAM KI.9) – 360°
Configuration sièges	6 (1 siège OEM + 5 sièges tactiques)
Vitrage	Multicouche balistique
Plancher	Protection anti-blast
Pneumatiques	Run-flat (affaissement limité)

EQUIPMENT & OPTIONS

ÉQUIPEMENTS STANDARD	OPTIONS

THE RAVEN The Raven

Robust Armoured Vehicle for
Engaging & Neutralization

TWO ROLES, ONE PLATFORM

LAW ENFORCEMENT

In the face of rising threats on national territory, law enforcement forces need a high-capacity intervention vehicle, manoeuvrable in urban environments and resistant to ballistic and explosive threats. THE RAVEN meets this critical operational need in urban environments, for a group of 8 to 10 armoured operators. THE RAVEN meets this requirement: compact footprint, with optional equipment including modular assault ladder, advanced communications, harpoon, winch, pole-mounted camera, Police/Gendarmerie markings.

DEFENCE & SPECIAL FORCES

On external theatres, THE RAVEN is a 10-tonne class air-transportable platform.

It covers the full range of operational needs: troop transport, MRAP, ambulance, command, counter-drone and logistics.
